The more you match up the more balloons you can have to throw.

Water balloon game with the shields – each team has a different colour water balloon, the shields are made, need garbage bags put over them. Each team needs to:

1. Have made enough shields for their team and garbage bags over them with a few extra made previously for the sides.

2. leaders have put the water in the balloons already

3. Done small group activity before and taped on the worries, to the balloon

4. Make two teams stand up in a line and shown how they are to stand together, (like the Roman Soldiers use to i.e. use shields in front on side, on top of their head and got to walk from one point to the other. Staying Close, linking arms and working together. But also racing the other team.

5. Each team has their team's colour water balloons. One has to try and hit one of the teams (not their shield) and the other team has to try hit the other team.

6. As many verses they matched up is as many turns they get to have a go at hitting them

7. The team that stays together and wins the race, gets 50 points.

Just like we need to work together as a body of Christ, so we can care for one another. When Christians are close to each other, they can be strong.

(Ecclesiastes 4:12, Galatians 6:2)
